PROFILE

I am a Senior Full-stack developer with 6 years of rich experience in building scalable and high-performance web applications. Skilled in React, Next.js, Svelte,Vue.js, Angular, Node.js, and GraphQL. Strong expertise in data integration and optimized database management, maximizing data processing speed with MongoDB, MySQL, and PostgreSQL.Proficient in Python, AWS and best practices such as TDD and Agile(SCRUM).
I am adept at building secure, scalable, and innovative blockchain applications across diverse ecosystems.

WORK EXPERIENCE

Self-employed, Montreal

Freelancer   Oct 2024 - present

- I have been focusing on building responsive and dynamic web pages using React.js, Html css, Next.js, Angular.js...
- Designed, developed, and deployed smart contracts on blockchain platforms like Ethereum, Binance Smart Chain, or Hyperledger.

247 Labs Inc, Toronto   May 2022 - Sep 2024

Full Stack Developer

- Led multiple projects from concept to completion, ensuring timely delivery and alignment with client goals.
- Engineered a comprehensive cloud backup system featuring a multi-step sign-up process and asynchronous backend services using React.js and Next.js, resulting in a 40% increase in user engagement.
- Implemented both MongoDB and PostgreSQL to enhance data management efficiency, leading to a 25% improvement in data retrieval times

Many Hats, Burnaby   August 2019 - April 2022

FrontEnd develooper

- Developed innovative front-end applications, focusing on delivering exceptional user experiences while meeting business objectives.
- Utilized HTML, CSS, JavaScript, jQuery, React, Next.js, Angular, WordPress, and Laravel to develop dynamic and responsive web applications.

EDUCATION

Algoma University | Ontario

Bachelor of Software engineering   2015 - 2019
